

BUNTS COLLEGE OF HIGHER EDUCATION (NIGHT COLLEGE)

2022-2023

1. Energy Saving-

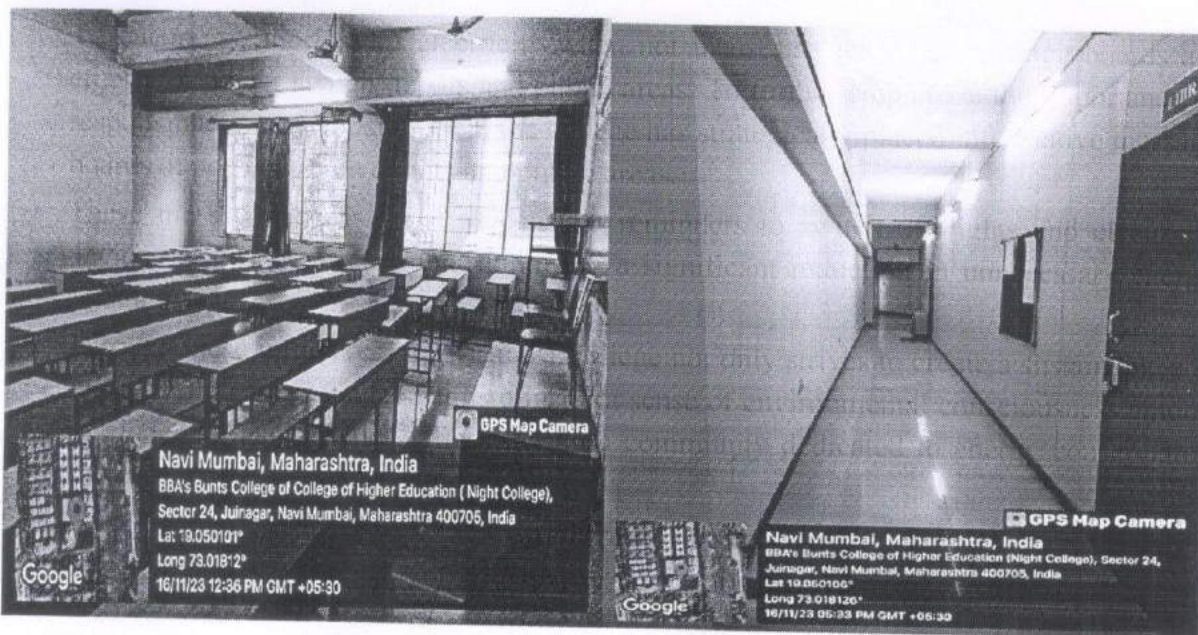

A number of energy-saving conversational initiatives are being implemented by the BBA Bunt's College of Higher Education (Night College) Juinagar. The College encourages the replacement of CFL bulbs with LED and tube lights.

To encourage the loss of electricity when not in use, a variety of message boards are erected at power switch depots and public areas. To further emphasize the importance of responsible energy consumption, the college has strategically placed informative message boards at power switch depots and public areas.

These message boards serve as constant reminders to switch off lights and electronic devices when not in use, contributing to a significant reduction in unnecessary energy consumption.

Through these initiatives, BBA Bunt's College not only strives to create a sustainable and eco-friendly campus but also aims to instill a sense of environmental consciousness among its students, faculty, and staff, fostering a community dedicated to energy conservation and environmental stewardship.

2. Management of the various types of degradable and non-degradable waste-

We have a number of terminals on our college campus to collect waste. There are several areas where you can find the dustbins with segregation facilities. Waste is separated into two categories: biodegradable and non-biodegradable. Giving the rubbish to a municipality pickup vehicle is how it is disposed of. Biodegradable waste, comprising organic materials like food scraps and plant matter, is separated from non-biodegradable waste, which includes items like plastic, glass, and metals.

This segregation process is crucial as it streamlines the recycling and disposal procedures, reducing the environmental impact. To ensure responsible waste disposal, the college collaborates with municipal services. Regular pickups by municipal vehicles are organized to collect the segregated waste, adhering to proper disposal protocols. This systematic approach not only minimizes the environmental footprint of the college but also serves as an educational model for students, fostering a culture of waste consciousness and responsible citizenship. Through these initiatives, BBA Bunts College not only manages its waste effectively but also contributes to creating a cleaner and more sustainable environment for the entire Juinagar community.

3. Alternatesourcesofenergyandenergyconservationmeasures-

Impeccable diesel generators are made by QAS. Due to their durability, they can be carried regularly or utilized as a permanent power source. All of the appliances and gadgets at college are powered by it when you're not linked to the mains. BBA Bunts College instills a sense of responsibility among its students, encouraging them to contribute to a greener future by embracing renewable energy solutions and adopting energy-efficient practices in their daily lives. The college serves as a beacon for sustainable education, inspiring the next generation to be stewards of the environment while pursuing academic excellence.

4. Greencampusinitiatives-

The Green Campus Initiative at BBA Bunts College of Higher Education (Night College) in Juinagar exemplifies the institution's commitment to sustainability and environmental consciousness. This initiative is a multifaceted approach aimed at reducing the ecological footprint of the campus while fostering a culture of environmental responsibility among students and staff. The college has implemented energy-efficient practices, such as the use of renewable energy sources and energy-saving technologies, to minimize its impact on the environment. Additionally, there is a focus on waste reduction and recycling, encouraging a circular economy within the campus premises. The Green Campus Initiative also includes initiatives like tree planting drives, creating green spaces, and promoting eco-friendly transportation options. Through these efforts, the college strives to create an atmosphere where sustainable practices are integrated into daily campus life, fostering a sense of environmental stewardship among the college community.

5. Disabled-friendly, Barrierfree Environment-

BBA Bunts College of Higher Education (Night College) in Juinagar is dedicated to fostering an inclusive and supportive learning environment. The institution has implemented a range of measures to ensure a disabled-friendly, barrier-free campus. From wheelchair ramps and accessible elevators to specially designed classrooms and amenities, the college strives to create an environment that accommodates the diverse needs of students with disabilities. Moreover, the institution actively promotes awareness and sensitivity towards disability issues, fostering a culture of inclusivity and understanding. This commitment to a disabled-friendly atmosphere reflects the college's dedication to providing equal opportunities for all students, irrespective of their physical abilities, and creating an educational space that is truly accessible to everyone.
